

DS-95i

Folder Inserter

Flexible, Intuitive and Intelligent

Quick, Accurate, Versatile

A Flexible Folder Inserter to Automate Document Processing

Companies are always looking for ways to streamline the processing of their business critical communications. Ideally suited for businesses that need to automate a wide variety of document sizes and types, the DS-95i folder inserter handles them all with ease. DS-95i comes standard with barcode reading technology to automate variable-page jobs, incorporating another layer of security that ensures the right documents are always sent to the right person. Add Quadient's powerful Output Management or AIMS software for even greater process optimisation and integrity.

Automated Document Preparation

Quadient's optional Output Management Software can add significant value by enhancing the formatting, personalisation, grouping, printing, barcoding, and addressing of your documents.

Automated Online Reporting

The DS-95i is a fully connected machine, allowing the system to upload key usage information to your NeoStats reporting. Featuring detailed analysis such as daily trends, envelope content count, secure/barcoded mailing usage and mailing details you'll have the necessary information to control and improve your outbound communications.

Visibility and Integrity

Businesses today face a multitude of regulatory issues and customer demands to guarantee the integrity of business communications and comply with GDPR.

The optional AIMS software extends DS-95i's built-in document security to deliver complete end-to-end process verification. So you can be sure every piece of mail in your job has been processed accurately, providing complete closed loop, piece-level integrity.

Document Control and Security

Quadient's exclusive CIS scanning device reads OMR 1 track, OCR, 1D barcodes and 2D Data Matrix codes. With this technology, the inserter control codes can be printed nearly anywhere on the document, providing you greater document layout flexibility and control.

Business Impact

Revenue Growth
Maximise opportunities to better communicate with customers

Risk Mitigation
Ensure that every recipient receives the right mail piece

Customer Engagement
Create your own professional looking mail pieces

Expense Control
Maximise productivity thanks to speed and reliability

DS-95i

1. High-Capacity Vertical Stacker
Preserves printing order and holds up to 500 finished envelopes so operators spend less time unloading.

2. Touch Screen Display
10" colour graphical interface makes DS-95i operation simple and intuitive.

3. Feeder Linking
Continuous operation is achieved by linking feeders. If one feeder runs empty, another one automatically takes over, allowing you to refill as needed until your job is complete.

4. Envelope Hopper
325-envelope capacity with on-the-fly reloading.

5. Automatic Collator
Collate and fold up to 10 pages together.

Simple and Intuitive

The colour touch screen and automatic job setup make DS-95i exceptionally easy to use. Simply load envelopes and documents and the DS-95i will adjust all settings automatically and even save them to the memory for instant recall.

Intelligent and Productive

To avoid stoppages and maximise efficiency, the IntelliDeck can automatically divert document sets which are too large to process (more than 10 pages) or sets requiring special handling, all while the system is still running.

Specifications

Processing speed	Up to 4,300 envelopes/hour
10" Colour touch screen	Standard
Automatic settings	Standard
FlexFeed multi-format feeder	Standard
Multi-sheet feeding	Standard
Cascade from all feeder	Standard
Document and insert feeders	Up to 7
Full page CIS scanner	Standard
Barcode Recognition (BCR)	Standard
Optical Mark Recognition (OMR)	Standard
Optical Character Recognition (OCR)	Standard
Job memory	50
Manual feed	Standard
High-capacity feeder	Up to 725 sheets (9kg)
FlexFeed capacity	325
MaxiFeeder capacity	1,200 sheets (9kg)
Fold types	Letter, z-fold, single, double parallel, no fold $\triangle Z \angle \llcorner _$
Document height	88mm - 355mm
Document width	129mm - 228mm
Document weight	Minimum: 60g/m ² - Maximum: 250g/m ² Maximum when folded: 170g/m ²
Envelope length	DL - C5
Envelope width	DL - C5
Maximum set thickness	2.5mm
Accumulate before folding	Standard
Tip-to-tip sealing	Standard

Options

AIMS closed loop piece verification	Available
Short feeders	Available
Different exits: vertical stacker, side exit, conveyor	Available
Output Management Software	Available
VersaFeeder Insert Feeder	Available
Mailing system interface	Available

We've Got You Covered

Quadient customer support is there for you with our contact centre and trained technicians who are ready to assist you. We are dedicated to providing you

with world class customer satisfaction and we offer automatic diagnostics with our product line.

By uploading systems data, we will be alerted if you are having trouble. This remote access to your system allows us to analyse the situation remotely and then fix it accordingly.
