PAYMENTS & PAYMENT PORTAL

quadi^{ent}
accounts receivable
by YayPay

Quickly, securely, and seamlessly collect payments from your buyers in their preferred method and currency

TAILORED INVOICE PAYMENT OPTIONS

Quadi^{ent} AR is the only comprehensive, integrated platform that provides electronic invoice presentment and payment (EIPP), collections, credit, and cash application. This enables you to flexibly manage your buyers across all channels of communication.

Partnering with global merchant service providers, Quadi^{ent} AR offers your buyers the best payment experience, wherever they are in the world. Take advantage of flexible and secure options that allow you to continue to collect payments while mitigating fraud risk, avoiding foreign exchange fees, and delivering a great buyer experience.

6 KEYS TO FASTER SETTLEMENT TIMES AND A BETTER BUYER EXPERIENCE

Improved Rates

Expand globally without facing high foreign exchange rates.

Enhanced Visibility

Improve buyer visibility into invoice amounts and due dates.

Reduced Fees

Remove the high cost of bank or card fees.

Localized Capabilities

Cater to buyers with local payment methods and currencies.

Standardized Experiences

Strengthen interoperability between your business and your buyers'.

Minimized Risk

Lower risk of duplicate payments and fraud.

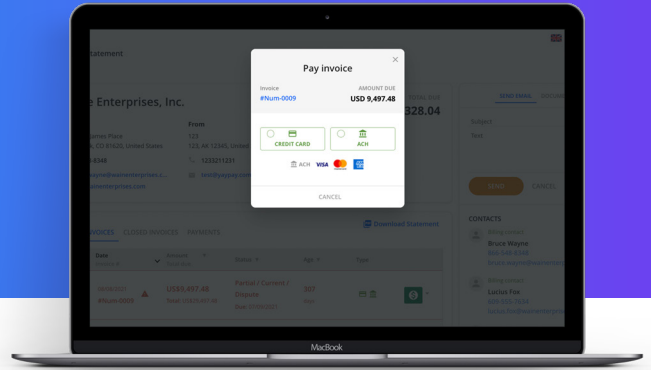

“We have seen payments come in faster, and a better customer experience because we are able to address things quickly.”

Chris Pearce, International Finance Director EMEA and APAC, Cheetah Digital

FAST AND FLEXIBLE PAYMENT COLLECTION

That boosts your bottom line and your buyer experience

KEY CAPABILITIES

FLEXIBLE PAYMENT EXPERIENCE

Buyers can pay quickly and smoothly — including international options — via credit/debit card or electronic bank transfer, through a direct invoice link. They can also 'set and forget' recurring payments so they are completed automatically.

USER-FRIENDLY PAYMENT PORTAL

An online portal makes it easy for buyers to view outstanding invoices and click to pay. Card details can be saved for ease of making future payments.

PCI-DSS COMPLIANCE THROUGH OUR PAYMENT PARTNERS

Buyer payment data is protected, providing security and peace of mind for customers and the AR team alike.

MULTICURRENCY PAYMENT OPTIONS

Invoice and collect payments from buyers in their local currency. Foreign exchange market management and currency exchange is offered through our partners, embedded within the Quadient AR platform.

AN INTEGRATED SOLUTION

Our partnerships with merchant service providers enable enhanced payment options. Buyers do not need to leave the portal and collectors can collect payment in the buyer's preferred method with no manual conversion work required.
