# Quadient AR — A Sage Integrated Partner

Easy to Integrate. Easy to Use. And Customers love it.

Providing access to one system for all of your accounts receivable needs, Quadient AR automates collection activities such as data entry and customer communications, optimizes the payment experience, and improves transparency in the AR process.

## HOW QUADIENT AR UNLOCKS THE FULL POTENTIAL OF SAGE INTACCT

### Robust Reporting
Quadient AR's Business Intelligence module enables you to create customized AR reports in seconds to power fast and effective decision-making.

### Optimized Workflows
Enhance the credit-to-cash process through instant credit checks, combining sales orders in Sage Intacct with integrated credit checking powered by Quadient AR.

### Superior Customer Experience
An integrated buyer portal puts invoice details and flexible payment capabilities at customers' fingertips.

## WHY QUADIENT AR IS THE PERFECT SAGE INTACCT PARTNER:

Provides easy access to invoices and other vital information, such as customer DUNS number, invoice PDFs, invoice-level sales, invoice-level contacts, and customer-level contacts.

Supports multi-subsidiary and multi-currency on a document level and allows for the set up of parent-child customer relationships.

Accelerates the creation of sales orders and quotes by providing comprehensive credit data, enabling quick and informed decisions regarding credit risk.
