

Multifamily Package Room

Designed for space or budget constrained properties

Whether you're augmenting your Parcel Pending Lockers, or need a standalone solution, Parcel Pending's Package Room gets property managers out of the business of package management and back to their real jobs of increasing resident renewals and reducing operational expenses.

Why choose us?

-  **Save valuable time and money**
No more time spent accepting, sorting and distributing packages.
-  **Reduce package liability**
A hands-off solution for on-site management teams.
-  **Boost resident satisfaction**
Convenient, 24/7 resident package access plus US-based 24/7 customer service.

Flexible

Secure storage for space constrained properties or locker overflow.

Safe

Provides controlled and monitored access to package room

Secure

Cloud-based video surveillance with access logs maintains security and accountability.

Simple Delivery

Couriers deliver packages directly to package room using their unique access code.

Monitored Access

Residents receive a unique access code to enter and retrieve their package(s).

Advanced

Flexible API allows seamless integration with your property management software system.

SPECIAL. DELIVERY.
