by YayPay

We are here to accelerate your digital transformation

Whether you are at the start of your journey or need support reaching the finish line, the Digital Optimization Team (DOT) is here to help you exceed your organization's goals, while improving customer experience.

In today's world of remote work, automation and digitized processes are key to unlocking efficiency. This is especially true for payments and invoicing. Enabling customers to switch to electronic methods and invoice delivery from traditional, paper-based processes powers a digital-first mindset that will make your practices more secure, measurable, and efficient.

WHERE YOU ARE TODAY

You may currently have a broad spectrum of invoice delivery and payment types serving your current customer base, including electronic methods such as ACH or credit card, as well as print invoice delivery and paper check payments.

Whether your goal is to increase customer electronic payment usage and invoicing by as little as 25%, or to convert 100% of your customers, the Quadi^{ent} team is here to help you succeed!

HOW WE'LL HELP

We'll work with you to create a personalized digital optimization strategy for your business, based on your goals.

By leveraging existing communications tools — such as your website, social media platforms, and customer invoice messaging — we'll help you effectively advertise the benefits of electronic methods.

The result? Accelerated digital transformation for your business and an improved payment experience for your customers!

CAPABILITIES TO ENSURE SUCCESS

Monitor the uptake of your electronic invoice delivery and payment methods within your customer base using Quadient's AR wide range of custom reporting capabilities

Work with our team to create tailored reports that enable you to map progress in a way that makes sense to your business

Quadient AR supports customizable, tailored communications that you can use in the same way as invoice reminders to ensure you're consistently promoting digital invoice and payment methods to customers

Enable features such as recurring payments and automatic payments to help increase electronic payment volume, while reducing Days Sales Outstanding (DSO)

READY TO GET STARTED?

The Digital Optimization Team (DOT) is ready to work with you – whether you have an idea of where you'd like to be, or simply want to effect change but don't know where to begin.

We'll take time to understand your business and work with you to develop a winning transformation strategy that benefits you and your customers!
