Because connections matter.

The ultimate mailing system range

Are you looking for smart tools that enable you to deliver efficient customer communications? The iX-7 Series franking machine can help, offering productivity at its best.

Durable keyboard and a large colour touchscreen make operating the iX-7 Series easy; advance mail feeders enable fast processing of all mail types.

Thanks to the iX-7 Series, you now have access to a growing suite of services and apps to improve postal, parcel and related digital communications.

All these are efficiently delivered using an eco-design approach, reducing your carbon footprint at every stage of the mail process.

iX-7 Series: Best-in-class automatic postage system

1 - Design (New colour touchscreen)

An intuitive and easy-to-use operating touchscreen that puts even a new operator in control, eliminating errors and improving productivity with a host of smart functions and effortless menu prompts.

4 - Time saving (Smart peripherals)

Save time & eliminate errors using the optional barcode scanner for reading accounts and your USB printer for printing reports.

5 - Productivity (Smart Start)

Automatic feeder adjusts to sort mail by size and thickness. Self-aligning rollers prevent jams or misprints [optional] and the automatic feeders increase operator speed.

2 - Ease of use (Intuitive control panel)

The fail-safe rate wizard helps eliminate incorrect postage being selected, ensuring mail is priced accurately each and every time.

3 - Connectivity (High speed connection)

Get the latest rates, software updates, ink alerts & remote diagnostics fast & easily through high speed internet connection. All iX machines are NBN compatible.

6 - Flexibility (External weighing platform up to 35kg)

The iX-7's integrated weighing platform will process heavy parcels up to 35kg as an option. If you need to process heavy parcels, the external weighing platform is made for you.

Guaranteed productivity

By using the memory pre-sets to access commonly used features

Intelligent processing

By using the rate shortcut to automatically calculate postage tariffs

Flexible weighing

By easily measuring the weight of any type of mail from single envelopes to small packages

Professional-looking mail

By adding your logo, address, slogan or QR code to promote your business
