

Enhance personalized experiences with Quadiant Inspire and Daylight

Combine your Quadiant solution with the ability to create digital experiences that collect, validate, and communicate business-critical information and data seamlessly across your organization.

Simplify the information collection process:

Empower your employees with robust solutions to simplify the administrative and form-based processes that trigger personalized customer communications.

Transform the customer experience and interactions:

Create and deliver personalized digital communications – e.g. policies/contracts, statements, calls-to-action, etc. – throughout the entire customer journey.

Automate communications and data collection:

Enhance customer self-service interactions, such as new account openings, onboarding, and updating customer profiles by automating the processes between the front lines and the back office.

Rapidly digitize onboarding and self-service interactions:

Daylight allows you to quickly transform manual workflows into digitized experiences, while Quadiant Inspire manages and unifies existing data for use during the account-opening process and throughout the customer lifecycle.

Empower business users:

Daylight's low-code platform unlocks the ability for non-technical users to build digital experiences, and, when combined with Quadiant Inspire, enables your organization to clearly communicate and guide customers through the journey.

Daylight + quadient

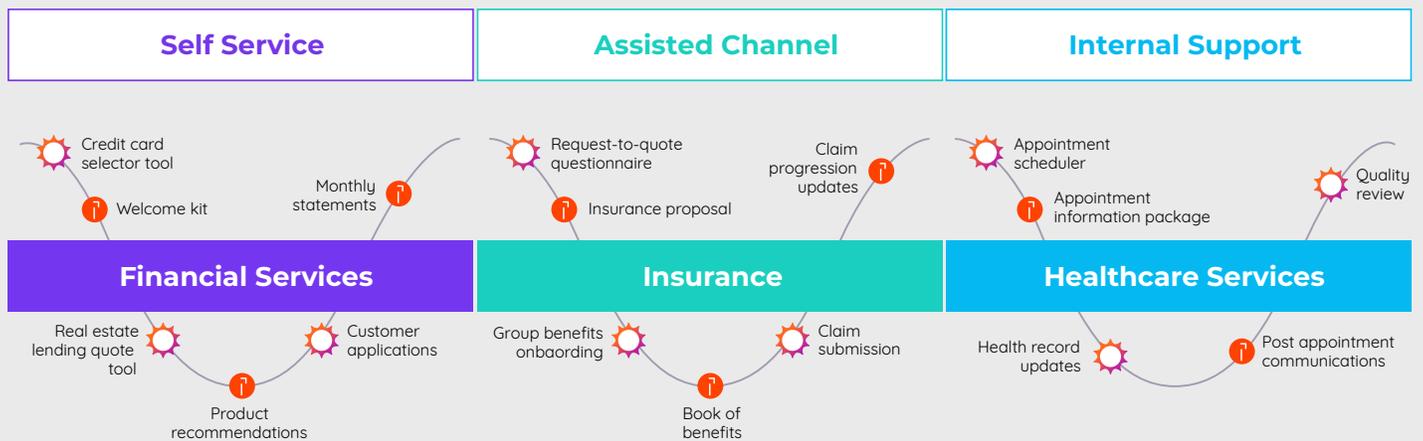

Quadient and Daylight have helped countless global enterprises structure vast volumes of data, and quickly transform manual processes into personalized digital experiences. Together, we can enable rapid response to market changes and accelerated digital transformation by empowering non-technical business users to safely design, manage, and deliver personalized, compliant content across all customer touch points and communications channels.

Rapidly deliver digital experiences and interactions across the user journey

Deliver simple digital tools for prospects, customers, and clients to use.

Transform the onboarding experience to complete it faster.

Define & standardize complex processes and experiences across channels.

“QUADIENT INSPIRE HAS DRAMATICALLY IMPROVED OUR CONTROL OVER CUSTOMER COMMUNICATIONS. WE CAN NOW MANAGE EACH STEP IN THE PROCESS OF GENERATING AND SENDING A POLICY, INCLUDING THE DESIGN ASPECTS THAT MAKE THE COMMUNICATION MORE ATTRACTIVE TO OUR CUSTOMERS.”

- Alexandre Putini, Superintendent of Digital Channel Systems & Contact Center, SulAmérica

✔ **Personalized Customer Communications:** Personalize all aspects of the communication content using all available data.

✔ **Accelerate Self-Service:** Empower your teams to build and scale personalized self-service touchpoints and generate relevant, compliant customer communications.

✔ **Balance Business and IT Concerns:** Reduce the time and resources required to deploy digital solutions that collect, validate and deliver critical data and information.

✔ **Sign and Send Document from anywhere:** Make it easy for your customers to sign and send documents from any device.

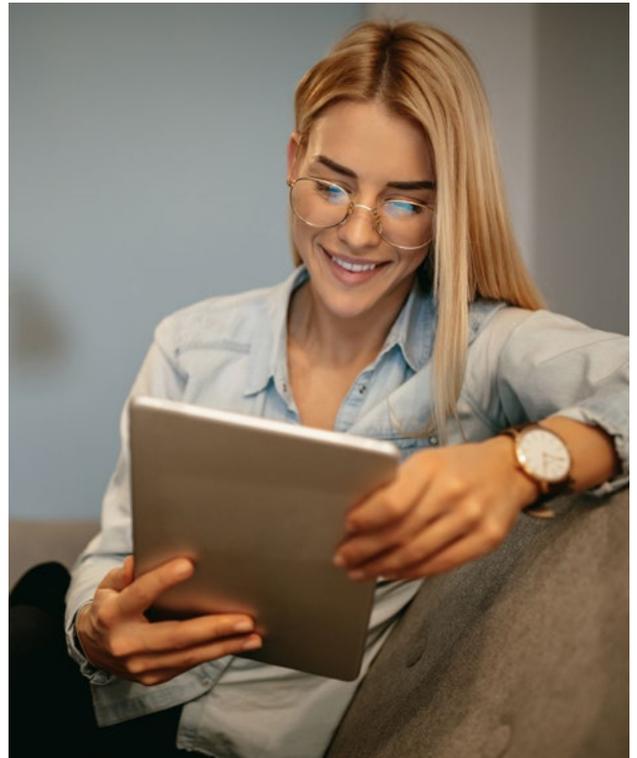

With Daylight and Quadient, enterprise teams can quickly deliver and support end-to-end digital experiences and automated personalized communications.

Quickly build and iterate personalized communications workflows using Quadient and Daylight.

Leverage the power of Daylight's low-code platform to empower non-technical staff to rapidly build on-demand digital experiences while streamlining the collection and structuring of back-end data. With automated data collection, you can create and deliver personalized, compliant customer communications across all digital and traditional channels, from one centralized hub.

Create self-service experiences that collect data from any source.

Whether you are enabling staff or creating a digital experience for customers, Daylight and Quadient makes correspondence and data intake an interactive experience for everyone. You can transform any manual workflow into a digitized – and iterative – experience that collects and delivers data cohesively. This enables all customer-facing touchpoints to be mapped to a comprehensive journey that is harmonized to your overarching enterprise brand and CX strategy, at every interaction.

quadient
Because connections matter.

About Quadient®

Quadient is the driving force behind the world's most meaningful customer experiences.
