The ultimate mailing system range

What if you had a cost-effective customer communications solution to assist you with staying one step ahead of the competition? The iX-3 Series franking machine can help you achieve this, both reliably and effortlessly.

The iX-3 is a professional franking system that makes it easy for you to weigh, frank and send your mail.

This highly capable franking machine is easy to operate, quiet and has been designed to integrate smoothly into your office environment.

Thanks to its state-of-the-art technology and Quadiant's online services you can be sure that you have the best solution to meet your demands and needs.

iX-3 Series: Best-in-class automatic postage system

1 - Design (Flush mirror finish)

The iX-3 features a sleek ergonomic design with a flush mirror finish and small footprint.

2 - Ease of use (Intuitive control panel)

Thanks to the Shortcut Keys, this machine is very quick and easy to use with the flexibility to weigh and manage all mail types from single envelopes to larger packages.

3 - Connectivity (High speed connection)

Get the latest rates, software updates, ink alerts & remote diagnostics fast & easily through high speed internet connection. All iX machines are NBN compatible.

4 - Time saving (Smart peripherals)

Save time & eliminate errors using the optional barcode scanner for reading accounts and your USB printer for printing reports.

5 - Productivity (Smart Start)

With Smart Start technology, each time an envelope is removed from the weigh platform in differential weighing mode, the iX-3 will automatically price the item directly to the envelope or label.

6 - Flexibility (External weighing platform up to 35kg)

The iX-3's integrated weighing platform will process heavy parcels up to 35kg as an option. If you need to process heavy parcels, the external weighing platform is made for you.

Guaranteed productivity

By using the memory pre-sets to access commonly used features

Intelligent processing

By using the rate shortcut to automatically calculate postage tariffs

Flexible weighing

By easily measuring the weight of any type of mail from single envelopes to small packages

Professional-looking mail

By adding your logo, address, slogan or QR code to promote your business
