

NEOPOST FINALIZES ITS MAJORITY STAKE IN TEMANDO

- ▶ **Significant extension of Neopost software offerings in e-commerce**
- ▶ **Strong complementarity with the existing portfolio of Neopost Shipping Solutions**

Paris, 7 April 2015

Neopost, the number 2 global supplier in Mail Solutions and a major player in Digital Communication and Shipping Solutions, today announced having taken a majority stake in Temando, an Australian technology company providing an intelligent fulfillment platform for the e-commerce and logistics industries. This press release follows the announcement made on 31 March 2015 disclosing advanced discussions between Neopost and Temando.

Neopost invested AUD 50m for the acquisition of existing shares and the subscription to new shares through a reserved capital increase.

Cash injected by Neopost through the capital increase would contribute to the funding of Temando investment in new product development and future expansion, leveraging Neopost global reach to access new markets, primarily in North America, UK and France.

Neopost and Temando are also considering to enter into a Put and Call Option deed, on the basis of which Neopost would progressively acquire the remaining shares of Temando.

Neopost expects return on capital employed to exceed 15% within a 5-year horizon.

Temando will be fully consolidated in Neopost's financial statements as from March 2015.

For more information on Temando, please refer to the press release dated 31 March 2015:
